SUMMARY

A professional with one year of experience as a pharmacy assistant, now transitioning into technology to tackle real-world challenges. Eager to apply problem-solving skills in areas like health informatics, software development, and data analysis. Currently enhancing my technical expertise in programming (Python, JavaScript), database management (SQL), and healthcare technology, while building practical projects and networking with industry professionals to make a meaningful impact in tech-driven solutions

KEY COMPETENCIES

Technical Proficiency
Problem-Solving Skills
Team Collaboration

Project Management
Adaptability
Data Analysis

Pharmaceutical Knowledge
Proactive and self-motivated
Version Control

EXPERIENCE

Viweka Hospital Pvt. Ltd, Veyangoda

Dec 2022 – Aug 2023

Pharmacy Assistant

Trained as a Pharmacy Assistant at Viweka Hospital, gaining hands-on experience in medication management and patient care. Additionally, I received training in hospital management and emergency procedures, enhancing my understanding of healthcare operations, along with IT management training focused on integrating technology into hospital systems to improve efficiency and patient outcomes.

Rangiri Holdings, Makola

Aug 2023 – Jan 2024

Pharmacy Assistant

Previously worked as a Pharmacy Assistant and Pharmacy Manager at a pharmacy chain, overseeing operations in Kalaniya, Kiribathgoda, and Makola, while managing all aspects of pharmacy operations.

Freelance

Dec 2023 -- Present

Vanilla JavaScript

As a freelance developer, I create custom web applications using vanilla JavaScript for both frontend and backend. I design responsive interfaces, implement backend systems, and integrate APIs, ensuring projects meet client needs and deadlines.
